Introduction

Plug the USB connector into your computer and the system will search the USB device automatically. Originally, the volume will show a blue LED, once Microphone mute is on, the button will show red LED.

Pack Contents:

- 5.1 Channel USB Gaming Headset
- Quick Start Guide
- CD containing Software and User Manual

Systems Requirements:

This device must be applied on USB specification products. You should confirm your PC operation USB function, USB 1.1 or 2.0.

No external driver installed:

- OS Support: Windows 2000, XP, Vista, MAC OS 9.0 / 10.1
- System recommended: use Intel Pentium III or AMD K6 500 CPU above
- At least 50MB hard disk space for good sound quality, please adjust your system's H/W acceleration and sample rate conversion quality to Full and Best.
- This device will apply your PC/Notebook default driver as a general USB headset without real/virtual multi-channel surrounding effect.

Note:

Some USB Host Controllers may have a problem with data stream package loss; this will influence output audio data and make some discontinuous sound.
If when you plug in your **5.1 Channel Gaming USB Headset** it does not automatically change audio device to USB audio, please switch the audio device to USB audio via '**Sound and Audio Devices Properties**' in the control panel.

Installation

Install Xear 3D Technology driver:

- OS Support: Windows 2000, XP, Vista
- System recommended: use Intel Pentium III or AMD K6 500 CPU above
- At least 512MB RAM
- At least 50 MB hard disk space
- Supports direct sound 3D

Note:

Windows OS has default USB driver support, but does not support HRTF 3D, EAX, and Virtual Multi-channel sounds effect function. If you want to enjoy these additional features, you must install the Xear 3D sound audio driver. Before you install the Xear 3D sound audio driver, you must make sure that the 5.1 Channel Gaming USB Headset is already connected to the PC system.

If your PC system has more than one USB connecting port, please remember which one is connected for installation. The next time you plug in your 5.1 Channel Gaming USB Headset to your PC you have to plug it into the same port.

Xear 3D Sound Audio Driver Installation Step:

1. Turn on the PC system and connect the 5.1 Channel USB Gaming Headset to the PC system.

2. Insert Application Software CD on your CD / DVD ROM, it will pop up auto run information.

3. Follow the onscreen instructions to complete the installation. Select either Vista or XP. Select 'setup.exe'

4. Select install driver only or both driver and demo program then click 'Next' to continue the installation.

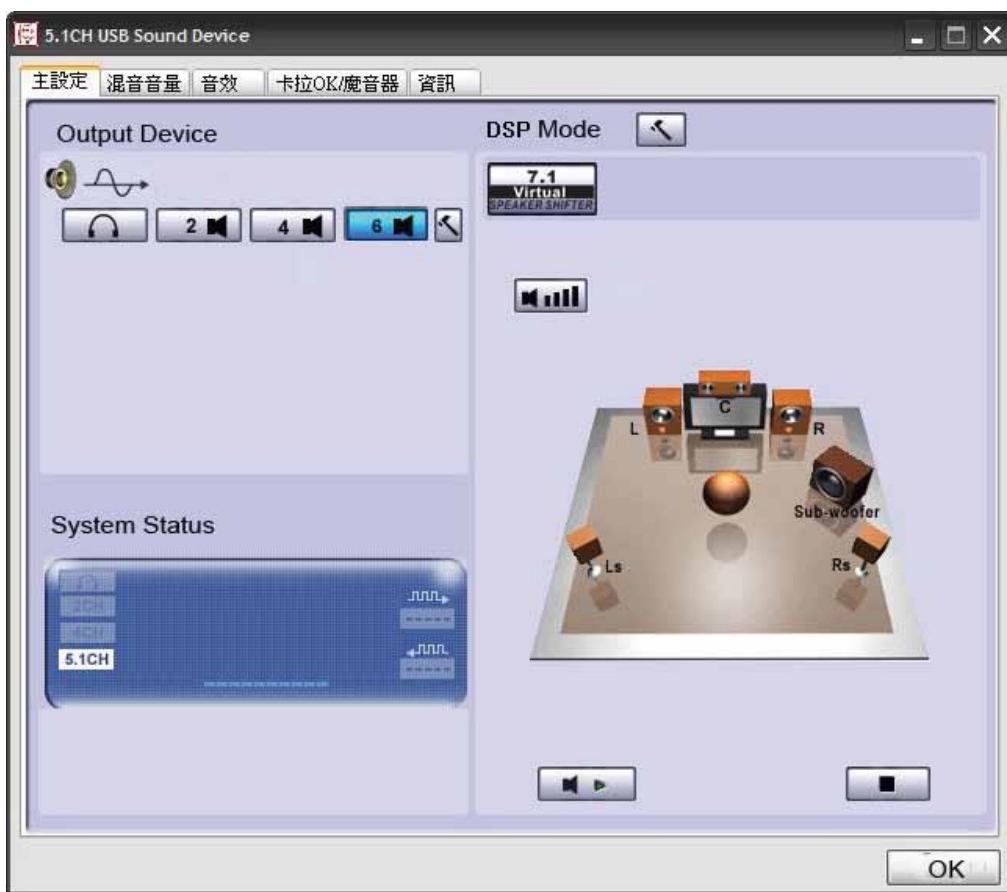

5. When set up program complete installation system will need to restart to initialize the driver. After you reboot and the system is running up again, you will see a small icon in the lower right of the screen. You can click it to open the Xear 3D Sound driver functions.

If your PC system has more than one USB port, you can just plug the 5.1 Channel Gaming USB Headset to any USB port. If it connects properly, the driver will detect which port is correct.

When the USB sound icon is showing, it means the Xear3D sound driver was initialized and is working now. If you have more than one USB port and you forgot which one was installed with the Xear 3D sound driver, this icon will show you are connected to the right port.

User Interface and Function Control:

1. **Analog Output Channels Mode:** Headphone, 2Ch, 4Ch, and 6Ch for selected, and the 6Ch will be set as default.

Product replacement is your sole remedy under this warranty, and this warranty does not apply to normal wear or to damage resulting from abnormal use, misuse, abuse, neglect or accident, or to any incompatibility or poor performance due to the specific computer software or hardware used. VERBATIM WILL NOT BE LIABLE FOR DATA LOSS OR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES, HOWEVER CAUSED, FOR BREACH OF WARRANTIES OR OTHERWISE. This warranty gives you specific legal rights and you may also have other rights which vary from state to state or country to country.

WEEE Notice:

The Directive on Waste Electrical and Electronic Equipment (WEEE), which entered into force as European law on 13th February 2003, resulted in a major change in the treatment of electrical equipment at end-of-life.

The WEEE logo (shown at the left) on the product or on its box indicates that this product must not be disposed of or dumped with your other household waste. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local municipal household waste disposal service or shop from where you purchased the equipment.

CE Declaration:

It is hereby declared that this product complied with the essential protection requirements of Council Directive 2004/108/EC and its amendments on the approximation of the laws of the Member States relating to electromagnetic compatibility.

This declaration applies to all specimens manufactured identical to the model submitted for testing/evaluation.

EN 55022 2006 Class B	IEC 61000-4-4: 2004
EN 61000-3-2 2006	IEC 61000-4-5: 1995 + A1 2000
